

Identity Kit (FL-03)

Author: Rida Eman | Track: AI Fluency (Identity Kit) | Date: 2026-09-12

1. Typography

Heading Font: JetBrains Mono (gives a crisp, technical ML engineering feel).

Body Font: Inter (highly legible, neutral, and clean for long-form case studies).

2. Palette (The 4-Color Tight Palette)

Role	Hex Code	Description
Background	#FAFAFA	Near-white, soft on the eyes
Text	#1E1E1E	Near-black, high contrast but not harsh
Accent	#3B82F6	Slate Blue, used sparingly for links/buttons
Muted/Borders	#94A3B8	Slate Gray, for subtle dividers

3. Logo / Favicon

I created a clean, simple monogram ('RE' for Rida Eman). It uses a near-black circle background with near-white geometric letters carved out, keeping it entirely aligned with the tight palette.

4. The Claude Project Style Note

Style Note: Use 'Inter' for body text and 'JetBrains Mono' for headings. The palette is minimalist: #FAFAFA (bg), #1E1E1E (text), and #3B82F6 (accent).
Mood: The mood is calm, technical, and highly structured—the design should never compete with the data or the code.
